YEAR *OF* THE GOAT

2015: YEAR OF THE GOAT

Make way for the Goat's Yin energy, which will nurture peace, balance, and harmony in 2015.

Chinese consider the goat – with its gentle aura – as serene and charming, yet resilient and determined with an iron will and enterprising spirit. Wood, fire, metal and earth elements dominate 2015, which means real estate, technology, and education industries will prosper.

2015 will also be a year where intellectual approach and diplomacy outmanoeuvres brute force. That means ensuring a smart approach to your business is vital. Stay vigilant and be prudent in all your endeavours.

Plan ahead for success with Chinese buyers this 2015!
